**Table 6. Health insurance coverage of the civilian noninstitutionalized population:
For the privately insured, non-elderly^a population, policies for individual (non-group)^b health
insurance, total number, and mean, median premium cost, United States, 2007**

Individual (Non-group) Health Insurance Policies	Policies^c (millions)	Mean premium cost (dollars)	Median premium cost (dollars)
All Policyholders	0.349	220	222
Single Policyholders	0.312	226	152
Family Policyholders	0.149	375	498

^a Policyholder age: 0-64

^b Individual (non-group) health insurance is coverage that is purchased directly from health insurers, rather than coverage through a group (e.g., employer based insurance).

^c The table above reports policies for all policyholders as of the beginning of the year; however, as a small number of people hold multiple policies, the unique number of policyholders is slightly lower.
